PRESIDENT'S MESSAGE

February is an exciting month for LMMAR! We are celebrating our 35th Year Anniversary this month. This is a great achievement! I look forward to meeting you at our 35th Year Anniversary Luncheon Celebration on February 22, 2008. We have confirmation from notable Distinguished Guests that will be attending. The fun theme is "...Mardi Gras!" Don't miss this wonderful event!

We are continuing to move forward. We are excited about making good things happen. An analogy for our progress is Starbuck's "Pour

Congratulations!

LMMAR Celebrates 35th Year Anniversary

LMMAR celebrates 35 years of active service. We are proud of this huge achievement. Lockheed Management Association Retirees (LMAR), as known then was officially formed in February, 1973. The first President was Lester H. Andrews. Membership was 106 members. The first Newsletter was issued in March. Today, Lockheed Martin Management Association Retirees (LMMAR) has 843 members and continues to be a dynamic organization. Let's look forward to another exciting and successful 35 years!

Don't miss our fabulous LMMAR 35th Year Celebration Luncheon on February 22, 2008 at Michael's at Shoreline, Mountain View. The fun theme of our luncheon is "...Mardi Gras!" Distinguished Guests have been invited. Let's all look forward to having an enjoyable time!

LESTER ANDREWS
First LMMAR
(LMMAR) President
1973-1974

Your Heart Into It, One Cup At A Time!" We appreciate the positive comments from members expressing their satisfaction. We are building momentum, and I am optimistic about our future!

We are starting a LMMAR Sacramento Area Group. Vern De Vincenzi, Travel Director, is working on this

project. This will be convenient for the LMMAR Sacramento Area members to meet together near their residence. Vern will send notices about their first meeting planned for March. Let me know if there are any other areas that would like to organize a LMMAR Extension Group. ...thinking

out-of-the-box?? we have LM sites all across the United States and the World!

Introducing LMMAR to be included in the new Retiree Exit Interview Folder in Sunnyvale is continuing. We have

(Continued on page 2)

navigated towards several requests to Sunnyvale LM-Human Resources. With persistence, we will eventually make the connection.

Carolyn Hobbs, Programs Director, has been busy planning our luncheons. This is a big job. Carolyn is also taking on our new LMMAR Toys-for-Tots, and Second Harvest Food Bank contact position.

LMMAR needs your help! I am reminded of a quote from Mother Teresa: "We ourselves feel that what we are doing is just a drop in the ocean, but the ocean would be less because of that missing drop". I encourage all members to participate, volunteer your help, have fun, and meet great people.

Be Happy!

Ken Koga
President

Asst. Travel Chairperson Janet Ham-
merlund 408-348-9933

Travel for 2008 and 2009
April 24 - May 10, 2008 The Panama
Canal Trip (SOLD OUT)

June 20 - 29, 2008. Lisbon to Porto,
Portugal, HAS BEEN CANCELLED (lack
of participation).

**OCTOBER 1 - 13, 2008 DELUX ITAL-
IAN HOLIDAY.** We are delaying this
trip until 2009. The dollar is not pur-
chasing as much in Europe as in the
past. Hopefully we can negotiate bet-
ter pricing and keep it as an upscale
trip for the fall of 2009.

**NOVEMBER 10-20, 2008. THE Mexi-
can Riviera on board the Star Prin-
cess. ROUND TRIP from SAN FRAN-
CISCO to SAN FRANCISCO.** We are cur-
rently in the process of formalizing
this trip and will have pricing and bro-
chures available by February 15th.

We are considering the following trips
for 2009 and will make a selection
after reviewing the itineraries

1. Riverboat in Holland for the
Tulip Season (a riverboat
cruise is best value for a
European trip)
2. Chicago area where in Lake
County they have the largest
Lipizzaner horse ranch in the
World.
3. Railroad trip in Canada.

The LMMAR travelers started 2008
with a New Years trip to San Antonio,
home of the Alamo, with extensive
choices of restaurants and shopping
along the artery of the City, the River
Walk. The Hilton Hotel located on the
River Walk, hosted our New Years Eve
Dinner dance and was our home for
four nights. The Nimitz Museum in
Fredricksburg, in the heart of this Ger-
man settlement, exhibited an exten-
sive gallery and Courtyard of pictorial
mementoes and tributes to those that
served in the Pacific Theater in World

War Two. Walking amongst those who had served and died during the War was nostalgic and brought forth memories of when we served our Country during this Chaotic Era.

like to join us any Tues. or Thurs at 12noon for 28 or 30 boards.

MEMBER LETTER

Dear Mr. Dhom;

It was with great surprise that I opened your letter this morning to find enclosed, a check in the amount of \$50.00. It was especially surprising since I have never been lucky when it comes to winning any type of drawing or lottery. I want to thank the LMMAR for this check and with it, the opportunity to honor my very good friend, Steve Ringwood, who passed away recently following a very severe cardiac arrest. A donation in his memory will be made to the United States Lawn Bowling Association (USLBA) Memorial Foundation. Steve was a favorite lawn bowling partner of mine during the past several years and we were fortunate enough to win several tournaments. Steve was a tremendous person and a very good friend, he will be missed.

Once again, thank you for the check. I know it will be used by the USLBA to support the future of lawn bowls in the U.S.A.

Sincerely;
Gordon A. Lockhart

PRESS RELEASE.

Three Lockheed Martin Entities Recognized On EPA's Fortune 500 List Of Green Power Purchasers

FACILITIES IN WASHINGTON, DC AREA, PALO ALTO AND SUNNYVALE, CALIF. RECOGNIZED

Bethesda, MD, January 31st, 2008 – The U.S. Environmental Protection Agency (EPA) has recognized Lockheed Martin [NYSE: LMT] for the company's leading green power purchase and participation in the agency's Green Power Partnership. Three Lockheed Martin facilities have been named in the agency's Fortune 500 Green Power Challenge List, which recognizes corporations that reduce environmental impacts associated with electricity use.

Lockheed Martin's Baltimore/ Washington area facilities purchased more than 25 million kilowatt-hours (kWh) of renewable energy in 2007, which ties Lockheed Martin for 23rd on the list of corporations participating in the Green Power Challenge. The facilities include buildings located in Chantilly, Fairfax and Manassas, Va.; and Bethesda, Gaithersburg, Rockville and Middle River, Md.

According to EPA, Lockheed Martin's purchase is equivalent to avoiding the carbon dioxide (CO2) emissions of nearly 4,000 passenger vehicles per year or the equivalent amount of electricity needed to power nearly 3,000 average American homes annually.

Lockheed Martin Space Systems facilities in Palo Alto, Calif., are collectively ranked 41st on the list. The facilities' 2007 purchase of 1.8 million kWh of renewable energy represents about 10 percent of the site's total power consumption.

Additionally, Lockheed Martin Space Systems in Sunnyvale, Calif., purchased 80,000 kWh of green power, also placing that facility on EPA's list.

"This is an honor, and we're proud to

(Continued on page 4)

be recognized by the EPA,” said Bob Stevens, Chairman, President and CEO. “Lockheed Martin is dedicated to finding responsible ways to ensure we are able to deliver the innovative solutions our customers require in ways that conserve natural resources and reduce our greenhouse gas emissions. I’m proud to say that our continuous quest for improvement is making a difference.”

The Green Power Partnership is a voluntary program that encourages organizations to buy green power as a way to reduce the environmental impacts associated with purchased electricity use. The Partnership currently has hundreds of Partner organizations voluntarily purchasing billions of kilowatt-hours of green power annually. Partners include a wide variety of leading organizations such as Fortune 500 companies, small and medium sized businesses, local, state, and federal governments, and colleges and universities. For additional information, please visit <http://www.epa.gov/greenpower>.

Green power is electricity that is generated from environmentally preferable renewable resources, such as wind, solar, geothermal, biogas, biomass and low-impact hydro. These resources generate electricity with a net zero increase in carbon dioxide emissions, while offering a superior environmental profile compared to traditional power generation sources. Green power purchases also support the development of new renewable energy generation sources nationwide.
