### PRESIDENT'S MESSAGE

**Greetings!** I am pleased to serve as your 2007-2009 Lockheed Martin Management Association Retirees (LMMAR) President. The new term of office starts on July 1, 2007. I am looking forward to working with our Leadership Team, planning fun activities, and serving our members. Our membership totals about 800 members and growing. The Organization has been in operation for over thirty years. LMMAR is affiliated with the Lockheed Martin Leadership Association, and the National Management Association.

## 2007-2009 In-coming Elected Officers. Congratulations!

President: Ken Koga  
 Vice President: Hal Boddy  
 Secretary: (open) Ralph Tamm  
 Assistant Secretary: Carl Roberts  
 Treasurer: Jerry Vaughan  
 Assistant Treasurer: Bill Hammerlund

The new term of office starts July 1, 2007 through June 30, 2009. LMMAR is a warm, friendly, and helpful organization for Lockheed Martin Retirees. We are a means for retirees to maintain contact with former associates, and with Lockheed Martin. We offer group travel, recreation, luncheons, and various social activities. We are a contact point for personal enhancement of members with Community Service, Educational Seminars, Youth Development Programs, Special Events, and Dinner Programs initiated by the Lockheed Martin Leadership Association, Bay Area Chapter. As we progress through the new term, we will always be looking for new, exciting activities to enhance our member events. We encourage members to participate in all levels of our organization. Volunteer help is always needed, and appreciated.

I wonder about the word "Retiree" which tend to mean our "cup is half empty". We are not looking-down for a soft place to land. Our "cup is half full" towards a wonderful, exciting life as a Retiree. We are looking-up to discover fresh, new places to explore. Our retiree future is ours to grasp! Our activities include luncheons, vacation travel, short trips, bridge group, etc. New ideas are

always welcome. We encourage all members to participate, have fun, and meet great people. You are the key to our Organization. Invite non-members to join us. Our Leadership Team is looking forward to a great year! Take on the challenge of being part of our Leadership Team. Let's make this a fun, exciting year! We are all volunteers serving our members.

Always feel free to contact

me, or the Executive Board for suggestions, improvements, or volunteer participation. ...Let's look forward to our wonderful retiree future!

Ken Koga,  
LMMAR President

**MEMBER LETTER**

Dear Norm,  
 What a surprise to win the \$50 May drawing. MAY just happens to be my birthday month. So, thank you for the present.  
 The local Salvation Army has a summer camp for children in need. I have sent the \$50 to support a needy child going to the camp this summer.  
 Thanks for the chance to do a real feel good deed for a child.  
 Sincerely,

Ron Bowlby

**BRIDGE**

**June 5 Individual:** 1 Tom Counihan; 2 (Tied) Paul Peuker, Angie Schynert and Dick Yeast.

**June 7 Pairs:** 1 Chet Hayes & Ted Hinshaw; 2. Tom Counihan & Dick Pollack; 3. (Tied) Caesar Grolemond & Bob Vigeant and Ken Krug & Angie Schynert.

**June 12 Individual:** 1. Ted Hinshaw; 2. Dick Yeast; 3. Dan Sloan; 4. Tom Counihan.

**June 14 Pairs:** 1. Julie Joyce & Angie Schynert; 2. Chet Hayes & Ted Hinshaw; 3. Tom Counihan & Gary Bea; 4. Don Kies & Leon Mount.

**June 19 Individual:** 1. Ken Christie; 2. (Tied) Ken Krug and Jorje Rodrigues; 4. Paul Peuker; 5. Tom Counihan.

**June 21 Pairs:** 1. (Tied) Roger Abegg & Jorje Rodrigues and Don Kies & Dick Pollack; 3. Chet Hayes & Ted Hinshaw; 4. Gary Bea & Tom Counihan.

**June 26 Pairs:** 1. Chet Hayes & Ted Hinshaw; 2. Bob Vigeant & Caesar Grolemond; 3. Jorje Rodrigues & Dan Sloan.

**June 28 Pairs:** 1. (Tied) Caesar Grolemond & Bob Vigeant; John Parker & Tony Zadel; and Chet Hayes & Ted Hinshaw.

Come out and join us at the P. A. Elks Club.

Ken Krug

Arriving at the hotel in the hillside village of Oggebbio for a magical three nights, touring by day, Stresa, Verbania, Lugano and the Borromean Islands. From here to Florence where our hotel is set in a 15<sup>th</sup> Century Hilltop Villa overlooking the magnificent city of Florence. For four days and nights we be visiting, touring and sightseeing the surrounding areas. We will tour the Medival City of Siena and enjoy a delicious lunch fol-

(Continued on page 4)

lowed by a winery tour and wine tasting. We do have to continue on to Sorrento with three days left on our adventure where we will enjoy the touring of the Amalfi coast, Capri Island, Pompei, finally on to Naples for our return home. For those who wish to extend their trip to Rome a three-day option is available. A presentation for our trips will be forthcoming

Vern

**THIRD PAIR OF MASSIVE LOCKHEED MARTIN SOLAR ARRAYS BEGIN PROVIDING POWER TO INTERNATIONAL SPACE STATION**

SUNNYVALE, Calif., June 12, 2007 – The third of four pairs of massive solar arrays and a second Solar Alpha Rotary Joint (SARJ), built by Lockheed Martin [NYSE: LMT] at its Space Systems facility in Sunnyvale, have been installed on the International Space Station by the crew of the space shuttle Atlantis. The two new solar arrays have been deployed and are generating electricity.

"It is a testament to the professionalism of the STS-117 crew and the mission support team that they made this difficult ISS construction project look easy, and the deployment of the new arrays was a sight to behold," said Brad Haddock, Lockheed Martin ISS pro-

gram director. "To see our arrays producing electricity is wonderfully satisfying, and we're confident that this addition will further harness solar energy for the Space Station and provide the power required for many years to come."

The Space Systems ISS solar arrays are the largest deployable space structure ever built and are by far, the most powerful electricity-producing arrays ever put into orbit. When the Station is completed a total of eight flexible, deployable solar array wings will generate the reliable, continuous power for the on-orbit operation of the ISS systems. The eight array wings were designed and built under a \$450 million contract from the Boeing-Rocketdyne Division in Canoga Park, Calif., for delivery to the Boeing Company and NASA.

Each of the eight wings consists of a mast assembly and two solar array blankets. Each blanket has 84 panels, of which 82 are populated with solar cells. Each panel contains 200 solar cells. The eight photovoltaic arrays thus accommodate a total of 262,400 solar cells. When fully deployed in space, the active area of the eight wings, each 107 by 38-feet, will encompass an area of 32,528-sq. ft., and will provide power

to the ISS for 15 years.

In addition to the arrays and SARJ, Space Systems in Sunnyvale designed and built other elements for the Space Station. The Thermal Radiator Rotary Joints (TRRJ) – each five and a half feet long and three feet in diameter – were launched in 2002. The two joints maintain Space Station thermal radiators in an edge-on orientation to the Sun that maximizes the dissipation of heat from the radiators into space.
